

# Xerox Color Upgrade Program

Get a check for up to \$2,000 when you buy a new Xerox® color printer or multifunction device.

Are you a high-volume printer user? Then you qualify for heavy duty rebates when you upgrade to new Xerox color printers or multifunction devices.

The Xerox Color Upgrade Program makes it affordable for high-volume printer users to upgrade to a new Xerox® machine. Depending on the Xerox® model you buy, you'll get a rebate check for up to \$2,000. You can receive a rebate check for any of 15 Xerox® models, ranging from traditional color printers to feature-packed multifunction devices. Buyers can claim up to five rebates per rebate period.

## How to qualify

To qualify, your organization must be able to accept a rebate check. Your existing printer must be a color device, either a single-function letter-size printer of any brand, a letter-size multifunction printer of any brand, or a non-Xerox tabloid (A3) color multifunction device. It also needs to be in good working order and able to print a start-up page.

Find out how many pages you've printed on your current device, then select an eligible Xerox® device from the table below.
